Data Analysis on Indian Air quality

12/2019

I am a hard worker and enthusiastic person, I want to build my future in the IT sector , As a first-year M-Tech Data Science student, I am passionate about gaining a foundation in statistical analysis, data mining, and machine learning techniques.

My academic coursework enabled me to develop analytical solutions to solve real-world problems. I am also excited to learn more about creating and deploying python, image processing and machine-learning models for real-time applications and analysis data, Overall, I am confident that my strong work ethic and willingness to learn will enable me to make meaningful contributions to any organization.

📁 Professional Experience

Freelance, Event Management

2016 – present

Assistant Manager, Tour & Travels

2013 – 2016

My work experience in tour and travel may not seem directly related to data science, but I wish there are likely transferable skills I can emphasize, For example, managing a team, analyzing customer feedback, or using data to improve operational efficiency. Be sure to quantify my accomplishments where possible.
